

[NEMSU Research Project]

[Grades 4–6]

[Activity Blueprint]

SAFENET PH DIGITAL CITIZENSHIP CLASSROOM TOOLKIT

A comprehensive, DepEd-aligned
activity pack for Grades 4–6 educators.

EQUIPPING GRADES 4-6 FOR SAFE AND RESPECTFUL DIGITAL NAVIGATION

THE CORE PURPOSE

Empowers young learners to navigate the digital world safely, helping them make respectful choices online.

TIMELY INTERVENTION

Fosters appropriate tech behaviour early, establishing responsible habits before negative patterns can take root.

DEPED ALIGNMENT

Seamlessly integrates technology integration with values education, fulfilling core Department of Education framework requirements.

SAFENET PH INITIATIVE

The complete SafeNet PH classroom activity matrix

Module Focus		Core Objective	Activity Type	Est. Time
Module 1: Digital Footprints	1	Recognising personal online presence	Group Scenario Analysis	45 Mins
Module 2: Online Privacy	2	Protecting personal information	Profile Checklist Assessment	45 Mins
Module 3: Cyberbullying	3	Teaching actionable empathetic responses	Pair Role-Play	50 Mins
Module 4: Social Media	4	Differentiating responsible behaviour	Interactive Sticky-Note Brainstorm	45 Mins

MODULE 1: TRACING AND UNDERSTANDING DIGITAL FOOTPRINTS

OBJECTIVE: Define digital footprints
MATERIALS: Whiteboard, chart paper, printed scenarios
TOTAL TIME: 45m

0–10m (Intro):
Brainstorm student definitions of a digital footprint. Write key ideas on the whiteboard.

10–30m (Activity):
Divide into small groups. Distribute printed scenarios of online actions. Groups analyse scenarios and present findings.

30–45m (Discussion):
Prompt critical thinking on real-life impacts.

KEY DISCUSSION PROMPTS:

1. What types of information make up your digital footprint?
2. How can your digital footprint impact your future?

MODULE 2: SECURING ONLINE PROFILES AND PERSONAL DATA

THE PRIVACY CHECKLIST

- ☐ Is your profile private?
- ☐ Do you hide personal information (address, phone number)?
- ☐ Are you cautious about friend requests from unknown people?

Module Stats

- **OBJECTIVE:** Equip students with protection strategies
- **MATERIALS:** Privacy checklist, printed profiles, PC/Tablet
- **TOTAL TIME:** 45m

0–10m (Intro): Briefly define the concept of online privacy.

Briefly define the concept of online privacy. Let students share their understanding of privacy. The process assembles profiles and online application to another person's personality.

10–30m (Activity): Distribute the privacy checklist. Groups assess printed online profiles against the criteria.

Distribute the privacy checklist. Groups assess printed online profiles against the criteria.

30–45m (Discussion): Share findings and discuss specific practices to enhance online security.

Share findings (Discussion): share findings and discuss specific practices to enhance online security.

MODULE 3: ACTIVE RESPONSES TO CYBERBULLYING SCENARIOS

- **Objective:** Define cyberbullying and teach responses
- **Materials:** Role-play scripts, paper, pens
- 🕒 **Total Time:** 50m

SCENARIO A: THE VICTIM

Directly receiving mean messages.

SCENARIO B: THE BYSTANDER

Witnessing online bullying.

0–10m (Intro)

Define cyberbullying and outline its different forms.

10–35m (Activity)

Split students into pairs to perform the role-play scripts (receiving mean messages vs. witnessing it). Groups perform for the class.

35–50m (Reflection)

Class discussion on appropriate, actionable responses.

How did it feel to be the victim, bystander, or supporter?

What should you do if you witness cyberbullying?

MODULE 4: DEFINING BOUNDARIES FOR RESPONSIBLE SOCIAL MEDIA USE

Module Stats:

OBJECTIVE: Promote respectful communication

MATERIALS: Sticky notes, markers, mock social media access

TOTAL TIME: 45m

T-Chart

RESPONSIBLE

IRRESPONSIBLE

TIPS FOR SAFE PRACTICE

0–10m (Intro):

Discuss what responsible social media use looks like in practice.

10–30m (Activity):

Students write examples of responsible/irresponsible posts on sticky notes and map them on the board.

30–45m (Discussion):

Facilitate conversation around respecting others' online boundaries.

Closing the learning loop through structured reflection

Assessment Methods

- Track active participation in discussions and role-plays.
- Administer a summary quiz on core digital citizenship concepts.

Student Reflection Template

Name:

1. What did you learn about digital footprints?

.....
.....

2. How can you improve your online privacy?

.....
.....

3. Describe a time when you witnessed or experienced cyberbullying.

.....
.....

Extended literature and essential educator resources

Support & Inquiries

SafeNet PH / NEMSU Academic Research Project

Contact your local DepEd or DSWD office for further implementation support.

Implementation checklist and final reminders

Action Checklist

- ☐ Print the physical activity packs for classroom distribution.
- ☐ Review role-play scripts and footprint scenarios.
- ☐ Prepare sticky notes, chart paper, and markers.

Mahalagang Paalala

Regularly revisit and reinforce these topics throughout the teaching year. Digital citizenship is not a one-off lesson; it is an ongoing commitment to our students' safety, well-being, and future success.
