

Building a Safe Digital Home

A step-by-step visual guide and customizable workbook for the SafeNet PH Family Online Safety Agreement. Designed to help families establish shared rules, safe habits, and emergency procedures.

SafeNet PH | NEMSU Academic Research Project

Managing digital consumption requires a shared family strategy

As family members spend increasing time online, unstructured screen time leads to friction and vulnerability. The Pamilya Online Safety Agreement transforms static rules into an active family exercise.

Review (Suriin)

Review the agreement together as a family to ensure everyone understands the shared goal.

Customize (Isulat)

Fill in the blanks as appropriate for your family's specific digital needs and daily routines.

Commit (I-print at pirmahan)

Print and sign the completed agreement to reinforce a formal commitment to each other's well-being.

Screen time is a destination reached through daily priorities

Before any family member logs into leisurely social media or gaming, foundational daily tasks must be cleared. This ensures digital leisure does not cannibalize real-world responsibilities.

Allocating specific daily digital hours for everyone

Setting explicit hourly limits for every family member—including parents—builds a culture of mutual accountability rather than top-down dictatorship.

Parent (Name):

Mom

Limit: 2 hours per day

Child 1 (Name):

Limit: _____ hours per day

Child 2 (Name):

Limit: _____ hours per day

Other Members (Name):

Limit: _____ hours per day

Defining clear boundaries for online exploration

Safe browsing means knowing exactly what to avoid while having a predetermined list of safe, approved destinations for learning and play.

We agree to avoid

Visiting inappropriate websites

Giving out personal info like address, phone number, or school details

Talking to strangers online

The Safe Zone Map

Approved Site 1:

Approved Site 2:

Approved Site 3:

Building a rapid response reflex for online emergencies

When family members encounter something uncomfortable or unsafe, they need a clear, shame-free protocol to follow immediately.

Encounter

If I encounter something uncomfortable or unsafe...

Stop (Don't Engage)

I agree to NOT respond or engage with the disturbing content.

Alert Parent

I agree to talk to a parent or guardian immediately.

Emergency Contacts

Parent Name/Number: _____

Guardian Name/Number: _____

Balancing firm discipline with positive reinforcement

Accountability requires knowing the exact cost of breaking the rules, while also recognizing and rewarding consistent good behavior.

Consequences

First Violation: _____

Second Violation: _____

Third Violation: _____

Rewards

Rewards for adhering to rules
(e.g., extra screen time, treats):

Sealing the family commitment to digital well-being

By signing below, we agree to follow the rules we have set together and uphold each other's safety and well-being online.

Date: _____

X Parent 1: _____

X Parent 2: _____

X Child 1: _____

X Child 2: _____

X Other Family Members: _____

The agreement is only as strong as your daily habits

Signing the document is the starting line. Maintaining a secure digital environment requires continuous maintenance, open communication, and active parenting.

Regular Check-ins

Schedule weekly family discussions about online experiences and new concerns.

Model Behavior

Parents must model the exact same good online practices they expect from their children.

Stay Informed (*Kaalaman at Pagsasanay*)

Keep abreast of new apps and trends. Help children recognize safe versus unsafe content.

Online safety is a comprehensive ecosystem of support

You are not parenting in the digital age alone. A safe home is supported by structured agreements internally and institutional guidance externally.

For inquiries and further support, contact your local DepEd or DSWD office.
